## 🎓 Education

**B.Tech in Computer Science & Engineering**          08/2021 – present | Dehradun
*Uttaranchal University*
Current CGPA: 9.24

**Higher Secondary**          06/2018 – 03/2020 | Begusarai
*River Valley School*
Percentage: 63.1%

## 💼 Professional Experience

**Industrial Training on Web Development**          06/2023 – 08/2023 | Jalandhar, India
*Internshala*
- Acquired proficiency in HTML, CSS, JavaScript, and other essential front-end technologies to create visually engaging and responsive user interfaces.
- Learned web development frameworks such as React to enhance user experience and development processes.
- Gained experience by building more than 5 dynamic and interactive web applications with user-friendly interfaces.

## 📂 Projects

### ● EPay
*Tech Stack Used: ReactJs, Javascript, MongoDB, Stripe Payment Gateway, CSS*
- A comprehensive digital wallet platform, empowering users to deposit, transfer or request funds securely.
- Designed and constructed an intuitive admin interface, that reduced user verification time by 40%, facilitating user verification by admin before granting access to transactional functionalities.

### ● BloodBank
*Tech Stack Used: ReactJs, Javascript, MongoDB, Tailwind CSS*
- A robust blood bank management system, empowering organizations to efficiently manage blood donations and blood distribution through inventory management ensuring real-time inventory updates.
- Enabled efficient registration processes for donors, hospitals, and organizations.

### ● Flipkart Clone
*Tech Stack Used: ReactJs, Javascript, MongoDB, Redux*
- Created RESTful APIs with Node.js and Express.js to handle server-side logic and data retrieval.
- Implemented Redux for efficient state management, ensuring data consistency and smooth user interactions.
- Created user authentication and authorization systems for secure registration, login and profile management.
- Integrated a secure payment gateway (Paytm) to enable seamless online payments within 1 minute.

### ● NoteKeeper
*Tech Stack Used: ReactJs, Javascript, CSS*
- Developed a note-taking web application using React and JavaScript.
- Integrated features such as real-time note creation, editing, and deletion, enhancing user productivity and organization and allowing users to create over 100 notes effortlessly.
- Implemented local storage functionality to enable persistent storage of user notes across sessions.

## 🧠 Skills

**CS Fundamentals** (Data Structures, Algorithms, OOPS, Operating Systems (OS), DBMS, Computer Networks, System Design) │ **Languages** (C, Java, JavaScript, PHP, R, SQL, HTML) │ **Frameworks** (Redux, Express.js, jQuery, Bootstrap) │ **Libraries** (React, Nodejs, Lodash, Axios) │ **Database & Tools** (MongoDB, VS Code, Eclipse, IntelliJ Idea, Git, Github, Postman) │ **Soft Skills** (Leadership, Event Management, Writing, Public Speaking)

## 🧩 Achievements

- Solved 300+ Problems on various coding platforms.
- 5 Star Rating in Problem Solving on Hacker Rank.
- 5 Star Rating in SQL on Hacker Rank.
- Participated in Tech-a-thon (iNeuron) and got top 50 rank.

## 🗒 Extra Curricular Activities

- Worked in NGO Maya Kaushalaya
- Event Management, River Valley School
